PERSONAL SUMMARY

A skilled java developer with proven expertise in using new tools and technical developments to drive improvements throughout a entire software development lifecycle. Having extensive industry and full life cycle experience in a java based environment, along with exceptional analytical, design and problem-solving capabilities. Excellent communication skills and able to work alongside support teams and the java community to define and refine new functionality.

Looking for a ambitious company which will challenge my developer and problem solving skills and allow me to continue to develop my knowledge and potential.

WORK EXPERIENCE

IT Consultancy Firm – Coventry
JAVA DEVELOPER June 2008 - Present

Working with other developers to build technical solutions & complete projects to budgetary and quality requirements. Also involved in requirements gathering, demonstrating software prototypes, technical sales presentations, customer training.

Duties:

- Development of Java interfaces & Configuration Management of the source code.
- Working with users to establish requirements and determine priorities.
- Meeting client's face to face at their offices.
- Developing new applications, components & functionality to existing systems.
- Involved in accurately providing estimated development times.
- Developing new functionalities, both back-end and front-end.
- Analyzing data and conducting compatibility and quality assurance testing.
- Identifying & addressing conflicts with newer client-implemented software.
- Investigating alternate configurations & implementing better solutions.
- Designing, developing, testing & configuring for a custom pre-authenticated scenario.

KEY SKILLS AND COMPETENCIES

- Strong core Java development experience.
- Ability to develop creative solutions for complex problems.
- Solid understanding of Tomcat, JBoss, GlassFish and OC4J servers.
- Extensive knowledge of JDBC / ORM Tools and relational databases.
- Excellent team worker with strong coaching and mentoring skills.
- Web development: HTML, CSS, Javascript; PHP, ASP.NET.
- Database: Oracle (TOAD), SQL Server, MySQL, Microsoft Access.
- Software development: Java: J2SE (including Swing), J2ME; Prolog, C, C#.
- Experience with application servers and containers as well as developing and integrating web services.

ACADEMIC QUALIFICATIONS

BSc (Hons) Computing
Nuneaton University 2005 - 2008

A levels: Maths (A) English (B) Technology (B) Science (C)
Coventry Central College 2003 - 2005
