## WORK EXPERIENCE

### Web Developer

Insight Global - Troy, MI - august 2016 până la Prezent

Web developer

### Frontend web developer

Blinklearning - Madrid, Madrid - ianuarie 2014 până la mai 2016

Front-End web development of the elements in the educational online platform with the next task:

- Creating elearning systems integrated in the platform to do exercises integrated with SCORM and our own test system using javascript, jQuery, HTML5, CSS3, PHP.
- Working with responsive and Mobile web development and debugging errors (android and iOS) working with css3 rules, events and plugins like rangy or jquery-touch-events
- deeply modifying the wysiwyg editor (CKEditor) in the web platform creating plugins and widgets, styles, modifying buttons and using events
- Using the DOM nodes system in HTML5 to modify nodes and create highlighted text in html and other areas in the platform.
- For manage the task we used git, trac and Jira.

### CTO and Co-Founder

Sezion Digital, S.L. - Madrid, Madrid - iulie 2011 până la decembrie 2013

Responsibilities

Transforming a good idea about audio and video creation in the cloud into a reality. Supervising the technical Project and team, creating the roadmap, supervising the issues and developing the platform that permits creating videos in the cloud with a JSON template and the multimedia elements that the users wants in the final video. That permits the system to generate automatically thousands of videos on different formats and qualities from a database, form, website, etc. And the connection with youtube permits sending the videos to this platform showing the correct targets from tags and descriptions.
