WORK EXPERIENCE

Full Stack Web Developer
CART - Culver City, CA - iulie 2016 până la Prezent

Client Administration and Reporting Tool (CART) is a SaaS product that enables hospital administrators, medical personnel, social workers and third-party healthcare agencies to collect, share, and analyze information related to emergency room visits. CART features a multi-tenant design, a secure invitation and user management system, custom form creator, geographic search, graphical reporting, and a response design.

● Used SQL Server to create and maintain stored procedures making use of table-valued types and transactions, as well as design tables with appropriate foreign key relationships. Executed SQL commands from application using C# and ADO.NET.

●Efficiently implemented a variety of full-stack features, including RESTful APIs with C# and ASP.NET Web API 2, server-side views with C# and ASP.NET MVC 5, and dynamic client-side interfaces with Ajax, JSON, JQuery and AngularJS.

●Participated in client meetings, including gathering requirements and demonstrating product features to drive discussion and feedback.

●Comfortable with source control tools such as git and GitHub, as well as TFS. Utilized code review tools to share knowledge, as well as shelvesets to allow different approaches to problems to be explored.

●Designed and refactored maintainable, loosely-coupled code using Microsoft Unity and AngularJS dependency injection capabilities.

●Adept at rapidly building functional, responsive, and aesthetically pleasing pages using Bootstrap 3 and CSS3.

Site Manager
El Camino Youth Symphony Association - Palo Alto, CA - iulie 2014 până la iulie 2016

Coordinate staging for 450+ musicians within 6 orchestras for a 20+ concert season
