Jaymond Huynh

Anaheim, CA - Email me on Indeed: indeed.com/r/Jaymond-Huynh/a0479980ce6b5b57

◦ Looking to expand my knowledge and experience through internships to switch career paths from computer science to a path more focused in business accounting.

WORK EXPERIENCE

Team Member

School of Business Administration - October 2016 to December 2016

Linux Command Prompt
◦ Implemented software in C++ to produce a command prompt, capable of chaining and executing.

Team Leader

School of Business Administration - September 2016 to December 2016

Created a 28-page Marketing Plan targeting Dr. Pepper Snapple Group.
◦ Detailing financial/marketing programs and strategies that could potentially be capitalized on to improve overall company value and achieve targeted goals in profit margin. As well as how to capture a larger market share both domestically and internationally.

Team Member

Department of Computer Science - September 2016 to December 2016

Developed different types of software algorithms, primarily in C++ and Python.
◦ With intentions to solve multiple problems such as nearest neighbors/all pairs for runtime analysis testing and examination. Under supervision of multiple professors, that met weekly deadlines in a fast-paced team environment.
